# TOPOGRAPH

CHRONO-ALTIMETER

ACTION / OUTDOOR

Beneath its traditional analog chronograph design, the Topograph contains a precision micro-altimeter, whose remarkable accuracy compares very favorably with that of classic barometric altimeters. Equally at home in the executive suite, or on top of any mountain. Impeccable elegance. Guaranteed performance.

Avec son design de chronographe traditionnel analogique, la Topograph reste un instrument d'une efficacité redoutable, et les performances de son altimètre miniaturisé sont égales à celles d'un altimètre barométrique classique. Une montre à la fois très sportive et d'une élégance sans faute. Performances garanties.

Mit ihrem Design im Stil des klassischen Chronographs, bleibt die Topograph eine hocheffiziente Instrumentenuhr mit einem leistungsstarken Mikro-Höhenmesser, dem den traditionellen barometrischen Höhenmesser in nichts nachsteht. Sie ist eine äußerst sportliche und elegante Uhr für jeden Tag. Makellose Eleganz, makellose Performance.

Model shown: 1M-SP40B2

## Dimensions:

### Unisex size / Taille d'unisex

Case diameter with crown:	45.48mm
Case diameter:	41.03mm
Lug to Lug:	45.90mm
Thickness:	12.31mm
Band Width / Entrecorne:	20.00mm
Weight (including strap):	0.08kg/0.20lb

## Technology

### Functions

### Power

### Case

### Crystal

### Finish

### Water-Resistance

### Dial Colours

Quartz Analogue with altimeter

HH, MM, SS, DATE. Continuous or normal altimetry function -300 to 5000m (in 10m gradation), altitude correction function, Chronograph, low-battery indicator, barometric sensor located on case back
